

# H&H 5x8 General Purpose Utility Trailer

**Only  
\$958**

Specifically designed for urban market buyers, the 5x8 General Purpose is an extremely lightweight unit capable of carrying 1,500lbs gross weight. It features a steel diamond plate floor, tilt bed design with 12" white wheels and tires as standard equipment. The unit comes with Full DOT compliant lighting, wiring harness, 4-prong flat trailer plug, safety chains, and a 2" coupler.

## Standard Features

- Solid panel 10" high.
- 62" deck width combined with a full 8-foot length of deck gives you plenty of room for cargo.
- **Steel diamond plate floor.**
- S bend tube tongue allows you to tow level behind full size vehicles.
- 1,500lb GVWR allows nearly 1200lb cargo capacity.
- 2" posi-lock coupler is easy to use and strong with a self-locking latch.
- Extra long dual safety chains with S type hooks come standard.
- Spring latch allows you to tilt up bed with no removal of pins or clips.
- Full fenders with stop, turn, and taillights.
- Full DOT compliant lighting with a 4-prong flat trailer plug.
- 480x12 DOT approved tires on white wheels add style and increase durability.
- Rock chip guard is standard on all fender fronts.
- **10-year limited warranty on frame, tongue, and crossmembers.**

**Spare Wheel  
& Tire \$55**

Taller 12" wheels allow for cooler bearings at highway speeds!

This trailer can carry your ATV or your ATV can tow it for light duty tasks! Very light weight!

# H&H 5x8 Golf Car Trailer

**Less than 450lbs!**

**Only  
\$863!**

**Add a wheel chock for motorcycles ONLY \$137**

Lightweight, High Strength, and Low Cost explain this design to a T. This is H&H Trailers® cost effective steel alternative to an aluminum trailer. A light, rigid tube chassis married to a solid, diamond plate steel floor makes this one great trailer for hauling your golf car or ATV. Standard stake pockets allow the addition of side boards for hauling clippings, mulch, and other lawn debris!

## Standard Features

- Rectangular tube frame and crossmembers. Nothing is more rigid for the weight!
- Diamond plate steel floor gives you virtually unlimited service life and less weight than wood flooring!
- Radius fenders with our custom steel fender backs keep it clean.
- Rock guard on fender fronts help guard against unwanted rock chips and add a little style to your new trailer.
- S-bend tube tongue allows trailer to pull level behind full size vehicles.
- 2" Posi-Lock coupler is easy to use, strong, and self-locking for your safety.
- Standard dual DOT approved safety chains are longer than other brands.
- Full DOT compliant lighting includes full wiring and trailer light plug with stop, turn, and taillights for safety.
- 2,000lb rated swivel-up jack for unhooking easily, even when loaded. Unhook and leave your load on the trailer!
- 1,500lb GVWR allows you to carry more than a golf car. Heavy suspension allows you to haul more at once!
- 20.5x8x10 DOT approved tires on 5-bolt pattern steel wheels. **Bigger, wider, and better on the road!**
- Standard tube steel main truss ramp gate unit allows easy loading and unloading at any time.
- Heavy gauge formed steel stake pockets on front and both sides. Great tie down points!
- Gate can also be laid forward onto deck for less wind drag when towing empty!
- **10-year limited warranty on frame, tongue, and crossmembers.**
