Dovetail

Note: All dovetails add 5' to the overall length of the trailer

MSRP

	Fixed dovetail	\$1,047.00
	Fixed 5' sloping tail comes complete with a pair of our heavy-duty pullout ramps in their own carriers.	
	Convertible Dovetail	\$1,478.00
	Our exclusive convertible dovetail gives you the best of both worlds! It can be a flat, level area for hauling cargo or with a quick flip of the hinged mechanism; it converts to a sloped dovetail for easy loading and unloading of wheeled machinery. 5' heavy-duty pull-out ramps and carrier included!	
	Fixed dove w/bobcat ramps	\$1,703.00
	If you haven't seen these ramps, you don't know what you are missing! A full <u>31 inches wide each</u> , they allow you to simply lay the ramps down to the ground and drive on without having to adjust them in and out. <i>Perfect for loading and unloading narrow gauge skid loaders!</i> Double spring assists on each ramp keep it easy to use as well! We challenge anyone to show us a better bobcat ramp!	
	Convertible dove w/bobcat ramps	\$1,831.00
	Our most popular option! The same super wide, super strong spring-loaded bobcat ramps as above, but with the coolest spring assisted center lift panel. Lay your ramps forward, lift and lock the center panel and the entire dovetail can be used as a flat floor!	
	Fixed Dovetail with Triple Bobcat Ramps	\$2,152.00
	Exchange your convertible center section with a 3 rd bobcat ramp – great for narrow front tractors!	

Suspension

Note: GVWR upgrades available only on Heavy Duty 19lb frame Hi-Decks[®]

MSRP

14,000lb Tandem Spring Axles	Tandem 7000lb axles equalized spring suspension and electric brakes	Standard
